**A message from J.L. (Johnny) Maczko
Chairman of the IBSSA Narcotics Policy Department**

Dear Fellow IBSSA Members,

As we have ended this year, and prepare for new challenges in Y2K2, I would like to first thank you all for your support and hard work that you have proven in strengthening the organisation. I say this on behalf of all chairmen of the various sections and departments.

NPD – Narcotics Policy Department, which was formed over a year ago, has made interesting lea way in the co-operative war against illegal drugs.

Some have heard, that there have been progressive changes to my career, and I would like to reiterate on these for a moment. During the year 2001, The Center for Narcotics Information Support was set up with our headquarters in Budapest, and liaison offices in the United States of America, and steps for offices in Romania, Slovakia, Austria, Germany and the U.K., Singapore have been taken. These offices will co-ordinate NPD as well as other organisation's work in the future.

On a personal note, to confirm information some may have heard of, I have been elected into the board of directors of INEOA (International Narcotics Enforcement Officers Association), for a 4-year term.

I certainly hope that all of these changes will add to our cause, and support IBSSA presence in the war against drugs through the supply and demand reduction initiatives.

Call to order of the Narcotics Policy Department.

On **18th March 2002** Narcotics Policy Department of IBSSA will host its official international call to order in Budapest, Hungary. The 1-day meeting is open to all IBSSA members, who are accepted into the department and will accept the role and obligations of the department. All applications must be made in writing including past experience of work related in the drug enforcement and/or crime reduction – related fields. The deadline for these applications is **28th February 2002**.

In closing, I would like to wish everyone and their family a Joyous Holliday Season, and prosperous New Year. One filled with new oppourtunities and success.

Sincerely,

Johnny Maczko

First Call to Order of the IBSSA Narcotics Policy Department
18th March 2002

Place: Budapest, Hungary

Start Time: 09:00
