ANNEX 9

Report of the Education & Qualification Department of IBSSA 29th November 2003

The department was one of the most active departments of IBSSA in the past few years.

During our term of office we created a full curriculum of official IBSSA courses, educational system.

We had numerous courses on National and International levels worldwide.

The department activities include the private sector but we had great success in building up serious professional cooperation with wide range of governmental security forces throughout the world.

We were teaching and qualifying official IBSSA security personals in Hungary, Singapore, Canada, USA, Israel, Italy, Macedonia, Greece, Gambia, Ireland, Romania, Slovenia, Slovakia, Czech Republic, Morocco and more. The department gave advisory service in Japan, USA, Gambia, Hong Kong, England, Ireland, Cuba, Macedonia South America and many more countries. We are truly active in every continent.

The department still aims to upgrade the level of our professional services and the level of the educational process in our courses. We need much more cooperation and understanding the professional needs of our clients. Also the curriculum of our courses needs more attention and supervision, which we would like to enforce in the future.

Our department is at your service full time, so I would like to encourage all of you to be in touch and use our advisory services to upgrade your activities.

Please make a use of our full curriculum of courses and ruling system of qualification within our society. On the IBSSA home page, at www.ibssa.org you can check the IBSSA ruling guide for all official courses.

I would like to use this opportunity to thank my colleges for the fine cooperation and the hard work for all of us.

Dr. Rony KLUGER
Chairman
