 - Future IBSSA Member States in USA
 - Relationship Building with International Professional Organizations
 - To Build and Grow IBSSA, Inc. (IBSSA-USA) on the Sample of IBSSA HQ (in Hungary) as an Organization
 - Future Propaganda, Dedicated Website and Technology

1.) IBSSA, Inc. (IBSSA-USA) Registration in the USA as an Official Organization

IBSSA, Inc. – as an association, - finally had the chance and opportunity to be able to register in the United States as an official “non profit organization”.

The “Founded Members” are as follows (Directors):

President of IBSSA for USA - Prof. George POPPER
Chief Executive Officer (CEO) of IBSSA for USA - Dr. Miklós VARGA
Chairman of IBSSA for Continental USA - Mr. Peter DEDICH
Vice-Chairman of IBSSA for Continental USA - Mr. Joe B MIRZA
Secretary General of IBSSA for USA - Mr. Tamás TÖRÖK
Legal Advisor of IBSSA for USA - Mr. Evan FRANKEL

There are going to be other possible positions filled in the close future at the organization.

Presently there are already several States joined IBSSA-USA, - and are represented by a Regional representative. This States are included:

- Florida (Registered State)
- New Jersey
- Ohio
- Wyoming
- Arizona
- Tennessee

There are other States, which are presently under project to possibly become a member of the organization. These States are as follows, just to name a few:

- South Carolina
- North Carolina
- Georgia
- Michigan
- California
- Nevada
- Indiana

The final goal of IBSSA-USA is to be present and operate (represent) in all States of the United States and actively educate and train the security professionals.

As IBSSA-ISF (International Sport Federation) is represented in the USA and one of our missions is to plan and organise some additional meeting(s) for the Board of IBSSA-ISF, to make ISF also in the USA what it really deserves. ISF deserves great attention and advancement in the US, - as well as in other parts of the world.

2.) INEOA (International Narcotic Enforcement Officers Association)

INEOA organised its annual (48th) Congress and Training Seminar in the Sunny Daytona Beach (FL) area. At this year there were three people representing the delegation of *IBSSA*:

- Mr. Géza Halaska
- Dr. Miklós Varga
- Mr. Tamás Török

As part of this four (4) days training, there were special training sections, where real situations (including “undercover” actions) were analysed and broken down to small pieces, to learn from any possible mistakes and use them as a learning experience for all of the men and women out there, who are risking their lives day by day, hour by hour.

*(As every year, - this year could not pass either without some losses of brave men and women. Let us salute to those and to those loved ones, - as we also did it on the congress with all.)

There was a very interesting part of this training section, where Instructors analysed (with interaction of the whole group) the necessity of “Force”. Separating the “deadly force” from the “non deadly force”.

At some point we were able to recognise an interesting experience. As part of the section, we recognised a similar training system (extreme stress training system) they are using here in the US, - the same way as

we (IBSSA) are using it from a while at the *Hungarian FBI Academy*. During the training we had to admit that the system what we use at IBSSA, - at same points, - is more efficient, in some cases is more advanced than what we experienced at the congress. I am also sure in that, - we may did feel this way because we did not have a chance to experience the whole system in this short period of time. At this point, we would like to lift it out and to say our "Thanks" to Dr. István Farkas and József Végh for their personal expertise, Instructions and the quality level of training they are providing to us during these years.

One of the most excited part of the trainings was the lecture and Instruction on "Terrorism", and the connection between "Terrorism" and "Narco-Terrorism".

On the last day of this training section participants were able to learn the aspect of the detection of drug market through the Internet technology and were able to practice how to question, listen and use witnesses to any related cases.

We need to address our special "Thanks" to Mr. Noonan (DEA) and to Mr. Bastianelli (Special Agent) for their Instruction and participation. All the staff, - but this two individual did a phenomenal work during this week. We also had some discussions about future trainings together, - with participation of INEOA, of some local Law Enforcement Agencies and IBSSA (in partnership with Folda Usa, Inc.).

One other spotlight of the event was that Mr. Géza Halaska got nominated to be a member of the Board of Directors at INEOA. At this point, - the final decision will be made later on.

3.) Folda International / Folda USA, Inc.

As Folda International is one of the Training Centres of IBSSA, finally Folda International (and Folda USA, Inc) is an officially registered security organization in the USA.

To register Folda USA, Inc. as a training facility for security professionals, it is required some special licensing which is presently in process, and waiting to arrive it at any time now. Folda USA, Inc is planning to revolutionizing the security industry in the US, - with continuous partnership and great relationship with IBSSA.

Folda USA, Inc (in cooperation and representation with IBSSA-USA) is already actively doing business in the security industry and also has some invitations for special trainings for different US Law Enforcement Teams. For more details, please contact us in a later time.

4.) IBSSA Projections for the Future in USA

As we mentioned it earlier, IBSSA-USA is planning to have a several new States involved in the work and activities of this industry, under IBSSA-USA. We have big plans and goals to reach, which will involve lots of hard and continues work to achieve it. We will work on it to be a dominated organization of the industry in the US and we will do everything is possible from our power not only speak about it, but to act on it as well.

Just briefly, some of our goals are as a "new" IBSSA organization:

- We will build and maintain new businesses and personal relationships with other industry professionals and International organizations, not only like the above-mentioned INEOA, DEA, US Special Agents, and other field of professionals, but even in the civil industry as well.
- We will try to build IBSSA-USA on the sample of the "mother organization", - the HQ of the IBSSA, and as part of it as well. We will follow the same vision, we will achieve it with the same system, and we want to take and dominate a big part of the whole "IBSSA Industry".
- IBSSA-USA website (www.IBSSA.us) - which is presently under discussion with the HQ of IBSSA. At first, - we will use our HQ's website as a direct link from our domain name. Later we will have our own website concentrating to USA and the rest of the world as well.

We, - as IBSSA, Inc. (IBSSA-USA)- are looking forward to work with all and every members and affiliated organizations of IBSSA and in the same time, we are wishing the best, and Continue Success to each and every one of you. Stay safe and healthy.

IBSSA, Inc. (IBSSA-USA), Miami / Florida
