Very important note

The following structure is temporary and it is under reconstruction.

Main guidelines decided by the congress in Budapest:

Each department will be consisted by some permanent (working) members and supplementary members. The permanent members have voting right and they elect the chairman among each other.

Within one year a parallel sport structure should be built up inside IBSSA following the proposal of Mr. Julian Moisescu and Mr. Pavel Florescu from “National Protguard” Romania. This is important, because some sports are an important part of the training of the security personal and IBSSA will also organize IBSSA Olympiad, which is a sport event!

There will be an „IBSSA Sport Federation” as a multi-sport organization for private security worldwide.  
Inside the IBSSA Sport Federation there will be martial arts, fighting sports, technical sports, shooting, etc.  
In every IBSSA member country they can set up the IBSSA National Sport Federations according the structure of the International IBSSA Sport Federation and those National Sport Federations will be members of the International Federation.
